THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of stews. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Biliousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irrig-	Retention of Urine
Asthma	ularities	Sciatica, or King's
Bilious Complaints	Fevers of all	Evil
Blotches on the	kinda	Sore Throats
skin	Gout	Stomach Gravel
Bowel Complaints	Head-ache	Secondary Symp-
Colic	Indigestion	toms
Constipation of the	Inflammation	Tic Douloureux
Bowels	Liver Com-	Tumours
Consumption	plaints	Ulcers
Debility	Lumbago	Veneral Affections
Dropsy	Piles	Worms of all kinds
Dysentery	Rheumatism	Weakness, from
Erysipelas		whatever cause,
		&c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

* * * There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. de7

NEW WESTMINSTER, SATURDAY, APR. 22, 1865.
AN IMPORTANT EPOCH.

So completely has public mind been absorbed during the past few days with the horrifying and portentous news which has reached us from the eastern part of this great continent that there appears to have existed an almost unaccountable unconsciousness as to the medium through which we have been placed in all but instantaneous communication with that portion of the world which has so recently become the theatre of one of the most brutal and mournful tragedies recorded in modern history. The first attempt which was made to render electricity available for the transmission of signals was that of Le Sage, a Frenchman, in 1774. But for all practical purposes the magnetic telegraph may be said to be only 28 years old, as it was in April 1837 that Professor Morse, an American, gave to the incredulous and astonished world the result of his experiments in utilising the Frenchman's discovery. Thus it is to American ingenuity that the world is indebted for the practical application of the magnetic telegraph, for the purpose of communication between distant points, as it is to American science and skill that must be mainly attributed the state of perfection which it has reached. Twenty-eight years ago this very month Morse "presumed five words could be transmitted in a minute," and in the following year the Professor telegraphed the words "Steamboat Caroline burnt" in six minutes. Now, thanks to the researches and discoveries of Professor Henry and other scientific Americans, a thousand such words could be transmitted in a minute! The first telegraph line was an experimental one, built by the American Congress in 1844, from Baltimore to Washington. That line was soon extended on to Boston; and line upon line has been multiplied, until now the country which may fairly claim to have given birth to the system exhibits a net-work of telegraph lines. This startling innovation upon the old preconceived notions of stage-coach communication was not long confined to the American continent. The first telegraph line in England was established in 1845, and in less than ten years that country had 4,000 miles of wire in operation. Now the system may almost be said to encircle the globe, and by its instrumentality man will soon be enabled to talk with his antipodes as if face to face, the variation of time, owing to the difference of longitude, more than meeting the average delay in transmission. If the world is indebted to American ingenuity and skill for the electro-magnetic telegraph we are indebted to American enterprise for its early application to British Columbia. The man who three years ago would have predicted that New Westminster would, in April 1865, enjoy telegraphic communication with the Atlantic States and Provinces would have been called a fanatic. And yet what none was bold enough to predict is now a palpable reality. Without an effort on our own part, without the expenditure of a dollar of the colonial revenue we enjoy what would have cost many thousands, were it not for the enterprise of our neighbors. And are we not open to the charge of holding lightly what is of inestimable value, simply because it cost us nothing? How does it come that an event which will occupy a place in the as yet unwritten history of British Columbia—an event which must form an important epoch in the history of the colony, has been permitted to pass by unmarked by any public recognition or celebration? It almost looks like ingratitude on the part of the people of New Westminster that such should be the case. The revolution produced by the telegraph is perhaps greater with respect to the press than any other interest or institution. Away in this far off and new country the feeling of isolation was greatly aggravated from the consideration that it took news weeks, if not months, to reach us. Now, events transpiring on the eastern rim of this continent to-day will be perused by our city readers as they sip their coffee to-morrow morning! Nor is it unreasonable to hope that in the course of a few months the same remarks will apply to the continent of Europe. When the line now being pushed on towards the frigid regions of the north shall have been completed, British Columbia will then occupy a still prouder and more favored position in the telegraphic system of the world. Need we tell our readers, in concluding these cursory remarks, that arrangements have

been made by which we shall be enabled to lay before them, in every issue, the latest dispatches in a tolerably full form, and that the British Columbian will henceforth be the earliest and most convenient medium through which the people of this colony, and for a time the people of the neighboring colony too, may obtain news from all parts of the world. A line traversing so many miles of rough and unsettled country must necessarily be exposed to frequent accident and interruption for a while at first; but in the course of a few days, or weeks at the most, it is to be presumed that communication will be less imperfect and less liable to interruption than it has been during the past few days. It will hardly be necessary to remind our readers that the arrangement into which we have entered with the International Telegraph Company involves a pecuniary expenditure which a strong and abiding confidence in the liberality of the public and the material prosperity of the country could alone justify.

PUBLIC NOTICE.

COTTONWOOD & RICHFIELD WAGGON ROAD.

SEALED TENDERS will be received at the Lands & Works Office, New Westminster, up to noon of WEDNESDAY, the 21st day of MAY, 1865, for the construction of a Waggon Road connecting the COTTONWOOD RIVER BRIDGE with the road now made to a point about 3 miles from the town of Van Winkle.

The road to follow the present blazed line as far as Davis' Creek, and thence along the valley of Lightning Creek to the point above named. The road will be divided into three sections.

SECTION I.—Extending from Cottonwood Bridge to a point on Lightning Creek where the blazed line of road intersects Capt. Grant's Trail.

SECTION II.—Extending from the last named point to Davis' Creek.

SECTION III.—Extending from Davis' Creek to the termination of the road (now constructed from Richfield), in the vicinity of the 47-mile post on Captain Grant's Trail.

Parties tendering for more than one section of this work must send in a separate tender for each section. With each tender must be enclosed a Bond of the person tendering, and of two responsible Sureties with him, for the payment to the Government of the sum of \$1,000, conditional on the non-fulfilment by him of the terms of his tender, if accepted.

The lowest or any tender not necessarily accepted. Further particulars can be had by applying at the Lands & Works Office, New Westminster, or at the Magistrate's Office, Quesnelmouth, where the Specifications and form of Bond can be seen.

Tenders to be addressed to the Chief Commissioner of Lands & Works, and superscribed "Tender for Cottonwood and Richfield Road."

SHOOTING AFFRAY ON THE HOPE! TWO CHINAMEN WOUNDED! THE PERPETRATORS ARRESTED.

We learn that while the steamer *Hope* was on her way up on Thursday, two gamblers had an affray with a number of Chinamen. One of them, Copeland, struck a Chinaman and cut off his tail, after which he drew a revolver and discharged one chamber. This occurred on the upper deck. He then jumped down upon the guard and discharged two shots into a crowd of Chinamen, inflicting flesh wounds in the legs of two of them. The two men went ashore, but came on board the *Reliance* at Jeffrey's Bar, and were arrested by Commissioner O'Reilly's constable, and handed over to the constable at Hope, who lodged them safely in jail at Yale.

IMPROVEMENT.—We observe a very nice improvement in progress in the picturesque little valley comprising the western boundary of Government House grounds. The chain-gang have been employed for some time back in removing stumps and stones and grading the valley, which has been enclosed by a fence. Our object in making these remarks is to suggest that, by raising the road a few feet, between the bluff at the south-western corner and the mound upon which Government House stands, the valley might easily be inundated in the winter season and thereby transformed into an admirable skating rink, to which, perhaps, the public might be admitted on certain days. The work would involve very little expense, and the piece of road to which we allude is too low, at any rate, for ordinary purposes. We respectfully commend the suggestion to the consideration of His Excellency.

CLEANINGS FROM VICTORIA PAPERS.—Victoria has paid a warm tribute of respect to the memory of Abraham Lincoln. The newspapers have gone into deep mourning, a large assemblage of people, amongst whom were the Governor and his family, listened to an eloquent oration delivered in the theatre by Mr. Garfield, the American Consul in the chair, while the Legislative Assembly passed a resolution of condolence, adjourning for one day as a mark of respect and sympathy. A large number of men are reported on Leech River, sawing lumber and making preparations for active mining. Prospectors reported the discovery of rich diggings, but the precise locality had not transpired.

"JOHN" CAUGHT.—Capt. Wyld, the revenue officer of this port, made the first seizure of opium under the new tariff yesterday. Observing a Chinaman who came up by the *Enterprise* making some rather suspicious movements, Mr. Wyld seized his carpet-sack, in which was found about 22 lbs. of opium. A derringeer was also found in his possession. "John" was marched off to jail and his goods taken charge of by the revenue officer. Another lot of 18 lbs. of opium is also being looked after, and will in all probability fall into the same hands. A few such cases will teach these rascals a salutary lesson.

LOSS OF A STEAMER.—The *Victoria Colonist* reports the loss of the steamer *Prince of Wales*, on Anderson Lake, B. C. By a recent decision in Bankruptcy the steamer in question is certainly lost to Mr. Roberts, but found to the creditors of Golding & Co. We understand that Capt. Golding, the popular commander, will shortly go up and take charge of that fine steamer.

THE NEW KOOTENAY MAPS.—The set of maps recently issued from the Lands & Works Office, showing the different routes to the gold fields of Wild Horse and Columbia Rivers, have been on sale for some time at Messrs. Clarkson & Co.'s book store. The price put upon the set is \$4, which we think too high, inasmuch as the primary object should be the circulation of reliable information respecting the colony. These maps were better offered at a nominal charge.

THE COTTONWOOD-RICHFIELD ROAD.—It will be seen from a notice elsewhere that Government is determined to push through the waggon road to Cariboo with a vigor which can leave the miners of that region no room for complaint. We are glad to observe that the work is divided into three sections, thereby giving those a chance who might not be in a position to undertake the whole road.

THE QUEEN'S BIRTHDAY.—The people of Victoria appear to be making preparations for the celebration of the 24th. We understand there is likely to be a very large muster of the native tribes here this year.

ECCLESIASTICAL.—We have been requested to announce that the Rev. James Nimmo, of the Church of Scotland Mission, Victoria, will preach in St. Andrew's Church in this city to-morrow morning at 11 o'clock.

BY TELEGRAPH.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

SECRETARY SEWARD RECOVERING RAPIDLY.

Frederick Seward Recovering Slowly.

BOOTH & 30 CONSPIRITORS HEMMED IN!

Surrall Arrested and Reveals the Plot!

Another Conspiritor Arrested in Baltimore!

PRESIDENT JOHNSON ENUNCIATES HIS POLICY.

CAPTURE OF REBEL FORTS AT BLAKELY—2,400 PRISONERS.

Lee Enters Richmond—Enthusiastic Reception.

Dates to the 18th April.

We received the following interesting intelligence over the International Telegraph line last night:

WASHINGTON, April 18.—To Sanford.—Uncle is much better; he sat up for quarter of an hour this morning, and was bright and cheerful to-day. There is a marked improvement upon yesterday. Frederick Seward is but slowly regaining consciousness—has spoken twice this forenoon. He sleeps much of the time, and breathes regularly. His pulse and appetite are good. Everyone feels encouraged in regard to both. The messenger and nurse are both doing well.

BALTIMORE, April 18.—A gentleman who was at Point Lookout, Maryland, yesterday morning, was informed by the officers of a gunboat that Booth and other conspirators, about 30 in number, were in St. Mary's County heavily armed, endeavoring to make their way across the Potomac River, which was strongly picketed, no one being allowed to pass. He also stated that on Sunday evening a small squad of our cavalry had a collision with them, and were repulsed, but succeeded in capturing one of them. Our cavalry were reinforced yesterday, and were understood to have them completely surrounded so that escape was impossible.

A highly important arrest was made here to-day. The name of the party is for the present withheld. He has made a full confession of being one of the conspirators against the life of the President, and acknowledges himself to be the author of the letter found in Booth's trunk.

WASHINGTON, April 18th.—Late last night a man disguised as a laborer, carrying a pick on his shoulder, approached a house occupied by a family of the name of Surrall, in this city, and was about to enter when he was arrested. Upon washing the dirt from his face he proved to be quite a different looking person from what his appearance at first indicated. He called himself Payne and exhibited not a little embarrassment, and managed to ask in an agitated manner why he was arrested. The colored servant of Secretary Seward was sent for, when he immediately exclaimed, "That's the man. I know him by general appearance and by his mouth." The servant said there could be no mistake. Others in Seward's house at the time will probably have recollection of Surrall's appearance, and will be afforded an opportunity of recognising him. The man is believed to be Surrall who perpetrated the dreadful acts at Secretary Seward's house.

BALTIMORE, April 18.—It is understood that the party alluded to in our arrest here states that the original design of the conspirators was merely to capture President Lincoln some time back, making him prisoner, and in this way compel a general release of all rebel prisoners held by the United States. When the general exchange of prisoners commenced, however, this project was abandoned by him and others as no longer necessary. He says he refused to have anything further to do with it, and endeavored to induce the others to give up their design upon the life of President Lincoln. This is substantially a correct statement of what he has so far divulged. His well known residence is in Baltimore.

NEW YORK, April 18.—Last special dispatch says President Johnson yesterday said to a clergyman, who begged him to be merciful to rebels, that mercy to individuals was not always mercy to States. He also declared to prominent members of Congress that he was willing to act with the utmost leniency towards the common people of the rebel States, but unrepentant leaders must be punished.

HEADQUARTERS IN THE FIELD, April 9.—To Halleck.—Spanish Fort and its dependencies captured last night, with 25 officers and 538 prisoners, 5 mortars and 25 guns. Major Port, of the garrison, escaped by water. Blakely already invested, and will be assisted to-day unless the works are stronger than now believed to be. (Signed) GEN. E. R. S. CANBY.

HEADQUARTERS IN THE FIELD, April 9.—To Grant.—I have the honor to report the capture this day of rebel forts at Blakely, with 2400 prisoners and 20 guns. (Signed) CANBY.

NEW YORK, April 18.—The *Herald's* Richmond dispatch of the 14th says that Gen. Lee arrived in that city at 3:30 P. M. He and his staff were received with the greatest enthusiasm by the populace, cheer upon cheer being given them, even Union soldiers raising their caps to him.

European News.

NEW YORK, April 7.—The *China* from Liverpool the 25th and Queenstown the 26th has arrived.

In the House of Lords, Russell laid on the table a notification from Minister Adams of the intention of the American Government to terminate the reciprocity treaty and the convention relating to armed force on the lakes. He admitted that the acts committed on the lakes wholly justified the American Government in the steps taken. The reciprocity treaty he trusted might be renewed with certain modifications. He also hoped that arrangements might be made for a limited armament for police service on the lakes. He trusted the present pacific relations between the two governments might continue, and hoped nothing would be done to excite unfavorable feeling in America, and concluded by declaring England had not acted wrongfully in any way towards America. After reiterating his hopes for continued peace he said: Sir Frederick Bruce, the new Minister, would sail on Saturday, and he believed the dignity and honor of the country would be safe in his hands.

In the House of Commons, the Marquis of Hartington moved that the vote for fortifications include £5,000 as part of the £20,000 required for Quebec. A long debate ensued. Hartington explained that the total estimate for the Quebec fortifications was £20,000. It was necessary now that the United States had become a great military power, to place Canada in a state of defence, although the Government had not the slightest expectation that the United States contemplated an attack. Bentinck objected to the motion, and moved the omission of the item for Quebec from the estimates. The merits of the question were debated by Peel, Ad. Lord, Disraeli, Lord Bury and others who supported the Government. Bright and Lowe were the principal speakers against. Palmerston did not think that there was any danger of war with America. They were friendly, and the Government only proceeded according to the practice of all countries. The amendment was rejected by 233 majority.

Continued political news was not important. London, March 26.—Paris advices state that the ram *Stonewall* quitted Ferrol, Madeira, March 21st, accompanied to sea by a Spanish frigate. The Niagara and Sacramento followed immediately. The expectation of a fight caused great excitement with the Spanish population, but the *Stonewall* apparently took no chance for an escape, and returned to port. It is stated on good authority that the rebel protest drafts will be paid to-morrow.

AN EXCITING CHASE.—Yesterday an Indian committed a petty theft at the Camp and put off in his canoe, being pursued by the Colonial Secretary with two men in a row-boat. The chase was kept up for nearly an hour, the Siwash adroitly doubling upon his pursuers. He finally took to the woods, his pursuers being within about a boat's length of him on reaching the shore.

RETURN OF THE "RELIANCE."—The steamer *Reliance* returned from Yale last night. She carried up 130 passengers and 70 tons of freight. The water had risen a few inches, barely enough to enable her to go over. She brings no news of importance from up-river. The Similkameen road is reported open 26 miles out from Hope.

The Str. "ENTERPRISE" returned from Victoria early yesterday afternoon, having undergone repairs. She will leave this morning at 10 o'clock. We understand the Hon. A. N. Birch, Colonial Secretary, will go over to Victoria by her.

The "ENVOY."—We learn that this ship is on her way to S. P. Moody & Co.'s Mills, Burrard Inlet, to take in a cargo of lumber for Adelaide, Australia.

The Sloop "SHARK" arrived yesterday from Nanaimo with a number of passengers.

SATTERTON ROAD.—Tenders are invited for the improvement of this road, which has been in a most deplorable condition for some time.

The "ALEXANDRA."—This steamer was released yesterday, Judge Begbie having decided that the assignees here could not hold her. She sailed for Victoria last evening, and will resume her regular trips.

The Rev. L. Fouquet on Calvin.

To the Editor of the British Columbian.

Sir.—Though the Rev. L. Fouquet has thrown down the gauntlet to every Protestant in the place, I for one have no wish to engage in a religious controversy. But, however unpleasant it is for anyone to be called upon to expose literary dishonesty, it is due to the memory of the sainted dead to defend their good deeds and good words against complete distortion. It may be very clever to falsify the record—to make a hit, or gain a point by picking out a few words from an author's works where he condemns opinions, and represent him as holding them; but, unless I am greatly mistaken, public opinion is sound enough among all sections to reprobate such a mode of advocating any cause, though it be that of liberty of conscience and religion. To prove the horrible opinions of the leaders in the blessed and glorious Reformation, the Rev. L. Fouquet, on page 23, puts these words into Calvin's mouth:—"Calvin said himself—'Men, by the free will of God, without any demerit of their own, are predestined to eternal death.'" Then, to show that we are to believe this without question or examination, we have the note—"Inst. 1, 3, c. 23."

But what is the fact? Why, sir, Calvin, the much-abused Calvin, calls those "vile" who make such an assertion, and merely writes the words for the purpose of replying to them in his own learned, scriptural, convincing manner! And yet M. Fouquet, either ignorantly or dishonestly, parades the words as Calvin's own sentiments! I need not say that it would be an easy task to convict any writer of holding any opinion you pleased to attribute to him, if you adopted this style. For instance, on page 28 of M. Fouquet's essay, second paragraph, I might in the same way charge the Roman Catholic Bishops of England, on the authority of M. Fouquet, with declaring "the Holy Scripture ought never to be taken in hand."

That your readers, however, may judge for themselves, I give a correct and literal translation of the paragraph from which the words above are so ingeniously extracted and Calvin's views so grossly perverted, as follows: (I give the words extracted in italics.) "But as these vile adversaries are not content with one species of opposition we will reply to them all as occasion shall require. Foolish mortals enter into many contentions with God, as though they could arraign him to plead to their accusations. In the first place they inquire, by what right the Lord is angry with his creatures who had not provoked him by any previous offence; for that to devote to destruction whom he pleases is more like the caprice of a tyrant than the lawful sentence of a judge; that men have reason, therefore, to expostulate with God, if they are predestinated to eternal death without any demerit of their own, merely by His sovereign will. If such thoughts ever enter the minds of pious men," &c., and so Calvin goes on at length to reply to what such "vile and foolish mortals" say, and shows that "all are corrupted by sin," man "falls by his own fault," and "by his own wickedness corrupted the nature he had received pure from the Lord," and therefore merits condemnation and death. A cause that requires such a mode of advocacy must be rather weak.

Very truly yours, R. JAMIESON.

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when-
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-
mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &
other Skin Diseases.

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat:
this course will at once remove inflammation and abso-
rption. The worst cases will yield to this treatment by
following the printed directions.

Scrofula or King's Evil and Swelling
of the Glands.

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore Throats.
Bunions.	Elephantiasis.	Skin-diseases.
Bite of Mosquitoes.	Fistulas.	Scoury.
and Sand-Flies.	Gout.	Sore-heads.
Coco-bay.	Glandular Swal-	Tumors.
Chigo-foot.	lows.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of Professor Holloway
244, Strand, (near Temple Bar) London; and by all re-
sponsible Druggists and Dealers in Medicines through-
out the civilized world, at the following prices:—1s.
1ld., 2s. 9d., 4s. 6d., 11s., 22s., and 35s. each Pot.

* * * There is a considerable saving by taking the
larger sizes.
N. B.—Directions for the guidance of patients in
every disorder are affixed to each Pot. au15
